

# SAFETY DATA SHEET

SealBoss R70 Pump Flush  
Oct 1, 2020

## **SECTION 1) CHEMICAL PRODUCT AND MANUFACTURER'S IDENTIFICATION**

**Product ID:** SealBoss R70 Pump Flush  
**Product Name:** SealBoss R70 Pump Flush  
**Revision Date:** Oct 1, 2020 **Date Printed:** Oct 1, 2020  
**Version:** 1.0 **Supersedes Date:** N.A.  
**Manufacturer's Name:** SealBoss Concrete Solutions  
**Address:** 1669 E. Wilshire Ave, Suite 609, Santa Ana, CA 92705  
**Emergency:** 800-255-3924 (ChemTel)/ Outside US and Canada 01-813-248-0585 (ChemTel)  
**Information-PhoneNumber:** 714-662-4445  
**Fax:** 714-662-4446  
**Product/Recommended Uses:** For Further Information, Refer to the Product Technical Data Sheet.

## **SECTION 2) HAZARDS IDENTIFICATION**

### **Classification of the substance or mixture**

Not a hazardous substance or mixture according to United States Occupational Safety and Health Administration (OSHA) Hazard Communication Standard (29 CFR 1910.1200).

## **SECTION 3) COMPOSITION/INFORMATION ON INGREDIENTS**

None of the chemicals in this product are hazardous according to the GHS.

## **SECTION 4) FIRST-AID MEASURES**

### **Inhalation**

Remove source of exposure or move person to fresh air and keep comfortable for breathing.

If exposed/feel unwell/concerned: Call a POISON CENTER/doctor.

### **Skin Contact**

Rinse/wash with lukewarm, gently flowing water and mild soap for 15-20 minutes or until product is removed. If skin irritation occurs or you feel unwell: Get medical advice/attention.

### **Eye Contact**

Remove source of exposure or move person to fresh air. Rinse eyes cautiously with lukewarm, gently flowing water for several minutes, while holding the eyelids open. Remove contact lenses, if present and easy to do. Continue rinsing for a duration of 15-20 minutes. Take care not to rinse contaminated water into the unaffected eye or onto the face. If eye irritation persists: Get medical advice/attention.

### **Ingestion**

Rinse mouth. If you feel unwell/If concerned: Get medical advice/attention.

## **SECTION 5) FIRE-FIGHTING MEASURES**

### **Suitable Extinguishing Media**

Dry chemical, foam, carbon dioxide is recommended. Water spray is recommended to cool or protect exposed materials or structures. Carbon dioxide can displace oxygen. Use caution when applying carbon dioxide in confined spaces. Simultaneous use of foam and water on the same surface is to be avoided as water destroys the foam. Sand or earth may be used for small fires only.

### **Unsuitable Extinguishing Media**

Water and foam may cause violent frothing and possibly endanger the life of the fire fighter, especially if sprayed into containers of hot, burning material.

### **Specific Hazards in Case of Fire**

Hazardous combustion products include oxides of carbon and nitrogen, various hydrocarbons.

### **Fire-fighting Procedures**

Isolate immediate hazard area and keep unauthorized personnel out. Stop spill/release if it can be done safely. Move undamaged containers from immediate hazard area if it can be done safely. Water spray may be useful in minimizing or dispersing vapors and to protect personnel. Water may be ineffective but can be used to cool containers exposed to heat or flame. Caution should be exercised when using water or foam as frothing may occur, especially if sprayed into containers of hot, burning liquid.

Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

### **Special Protective Actions**

Care should always be exercised in dust/mist areas.

Wear protective pressure self-contained breathing apparatus (SCBA) and full turnout gear.

## **SECTION 6) ACCIDENTAL RELEASE MEASURES**

### **Emergency Procedure**

Keep unnecessary people away; isolate hazard area and deny entry. Do not touch or walk through spilled material. Clean up immediately.

### **Recommended Equipment**

Appropriate dust or face mask to eliminate breathing foam dust particulates.

### **Personal Precautions**

Avoid breathing vapors. Avoid contact with skin, eyes or clothing. Do not touch damaged containers or spilled materials unless wearing appropriate protective clothing.

### **Environmental Precautions**

Stop spill/release if it can be done safely. Prevent spilled material from entering sewers, storm drains, other unauthorized drainage systems and natural waterways by using sand, earth, or other appropriate barriers.

### **Methods and Materials for Containment and Cleaning up**

Confine spillage and absorb on sand, sawdust, or other suitable absorbent material and transfer to a sealed container.

## **SECTION 7) HANDLING AND STORAGE**

### **General**

Wash hands after use.  
Do not get in eyes, on skin or on clothing.  
Do not breathe vapors or mists.  
Use good personal hygiene practices.  
Eating, drinking and smoking in work areas is prohibited.  
Remove contaminated clothing and protective equipment before entering eating areas.  
Vent containers before melting the material.

### **Ventilation Requirements**

Use only with adequate ventilation to control air contaminants to their exposure limits. The use of local ventilation is recommended to control emissions near the source.

### **Storage Room Requirements**

Keep container(s) tightly closed and properly labeled. Store in cool, dry, well-ventilated areas away from heat, direct sunlight, strong oxidizers and any incompatibilities. Store in approved containers and protect against physical damage. Keep containers securely sealed when not in use. Indoor storage should meet OSHA standards and appropriate fire codes. Containers that have been opened must be carefully resealed to prevent leakage. Empty container retain residue and may be dangerous.

## SECTION 8) EXPOSURE CONTROLS/PERSONAL PROTECTION

### Eye Protection

Wear eye protection with side shields or goggles.

### Skin Protection

Use of gloves approved to relevant standards made from the following materials may provide suitable chemical protection: PVC, neoprene or nitrile rubber gloves. Suitability and durability of a glove is dependent on usage, e.g. frequency and duration of contact, chemical resistance of glove material, glove thickness, dexterity. Always seek advice from glove suppliers. Contaminated gloves should be replaced. Use of an apron and over-boots of chemically impervious materials such as neoprene or nitrile rubber is recommended to avoid skin sensitization. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. Launder soiled clothes or properly disposed of contaminated material, which cannot be decontaminated.

### Respiratory Protection

If engineering controls do not maintain airborne concentrations to a level which is adequate to protect worker, a respiratory protection program that meets or is equivalent to OSHA 29 CFR 1910.134 and ANSI Z88.2 should be followed. Check with respiratory protective equipment suppliers. Where air-filtering respirators are suitable, select an appropriate combination of mask and filter.

### Appropriate Engineering Controls

Provide exhaust ventilation or other engineering controls to keep the airborne concentrations of vapors below their respective threshold limit value.

Chemical Name	OSHA TWA (ppm)	OSHA TWA (mg/m3)	OSHA STEL (ppm)	OSHA STEL (mg/m3)	OSHA Tables (Z1, Z2, Z3)	OSHA Carcinogen	OSHA Skin designation	NIOSH TWA (ppm)

## SECTION 9) PHYSICAL AND CHEMICAL PROPERTIES

### Physical and Chemical Properties

Density	8.10 lb/gal
Specific Gravity	0.97
VOC Regulatory	0.00 lb/gal
VOC Part A & B Combined	N.A.
Appearance	Liquid
Odor Threshold	N.A.
Odor Description	Mild-Chemical
pH	N.A.
Water Solubility	N.A.
Flammability	N/A
Flash Point Symbol	N.A.
Flash Point	200 °C
Viscosity	N.A.
Lower Explosion Level	N.A.
Upper Explosion Level	N.A.
Vapor Pressure	N.A.
Vapor Density	Heavier than air
Freezing Point	N.A.

Melting Point	N.A.
Low Boiling Point	250 °C
High Boiling Point	N.A.
Auto Ignition Temp	N.A.
Decomposition Pt	N.A.
Evaporation Rate	Slower than ether
Coefficient Water/Oil	N.A.

## **SECTION 10) STABILITY AND REACTIVITY**

### **Stability**

Material is stable at standard temperature and pressure.

### **Conditions to Avoid**

Avoid storage at low or high temperatures.

### **Hazardous Reactions/Polymerization**

Contact with isocyanates and strong oxidizers may cause highly exothermic polymerization reaction, which can be violent.

### **Incompatible Materials**

Strong mineral acids and strong alkalis will seriously degrade material. Heat may be involved.

### **Hazardous Decomposition Products**

Combustion by-products: Oxides of carbon, various hydrocarbons.

## **SECTION 11) TOXICOLOGICAL INFORMATION**

### **Skin Corrosion/Irritation**

Based on available data, the classification criteria are not met.

### **Serious Eye Damage/Irritation**

Based on available data, the classification criteria are not met.

### **Respiratory/Skin Sensitization**

Based on available data, the classification criteria are not met.

### **Carcinogenicity**

Based on available data, the classification criteria are not met.

### **Germ Cell Mutagenicity**

Based on available data, the classification criteria are not met.

### **Reproductive Toxicity**

Based on available data, the classification criteria are not met.

### **Specific Target Organ Toxicity - Single Exposure**

Based on available data, the classification criteria are not met.

### **Specific Target Organ Toxicity - Repeated Exposure**

Based on available data, the classification criteria are not met.

### **Aspiration Hazard**

Based on available data, the classification criteria are not met.

### **Acute Toxicity**

Based on available data, the classification criteria are not met.

### **Likely Routes of Exposure**

Inhalation, Ingestion, Skin contact, Eye contact

## **SECTION 12) ECOLOGICAL INFORMATION**

### **Toxicity**

Based on available data, the classification criteria are not met.

### **Persistence and Degradability**

No data available.

### **Bioaccumulative Potential**

No data available.

### **Mobility in Soil**

No data available.

### **Other Adverse Effects**

No data available.

### **Bio-accumulative Potential**

No data available.

## **SECTION 13) DISPOSAL CONSIDERATIONS**

### **Waste Disposal**

Under RCRA, it is the responsibility of the user of the product, to determine a the time of disposal whether the product meets RCRA criteria for hazardous waste. Waste management should be in full compliance with federal, state, and local laws.

Empty containers retain product residue which may exhibit hazards of material, therefore do not pressurize, cut, glaze, weld or use for any other purposes. Return drums to reclamation centers for proper cleaning and reuse.

## **SECTION 14) TRANSPORT INFORMATION**

### **U.S. DOT Information**

Not regulated

### **IMDG Information**

Not regulated.

### **IATA Information**

Not regulated.

## **SECTION 15) REGULATORY INFORMATION**

<b>CAS</b>	<b>Chemical Name</b>	<b>% By Weight</b>	<b>Regulation List</b>
No applicable CAS	No applicable chemical	-	-

## **SECTION 16) OTHER INFORMATION**

### **OTHER INFORMATION**

Note: As per GHS, category 1 is the greatest level of hazard within each class.

## DISCLAIMER

Limited Warranty Policy and Disclaimer for Products Supplied and/or Distributed by SealBoss Corp.: All recommendations, statements and technical data herein are based on tests we believe to be reliable and correct, but accuracy and completeness of said tests are not guaranteed and are not to be construed as a warranty either expressed or implied. User shall rely on his or her own information and tests to determine suitability of the product for the intended use and user assumes all risk and liability resulting from his or her use of the product. Nothing contained in any supplied materials relieves the user of the obligation to read and follow the warnings and instruction for each product as set forth in the current Technical Data Sheet, product label and Material Safety Data Sheet prior to product use. SealBoss Corp. warrants supplied / distributed products to be free of manufacturing defects. Seller's and manufacturer's sole responsibility shall be to replace that portion of the product of the manufacturer which proves to be defective. There are no other warranties by SealBoss Corp. of any nature whatsoever expressed or implied, including any warranty of merchantability or fitness for a particular purpose in connection with this product. SealBoss Corp. shall not be liable for damages of any sort, including remote or consequential damages resulting from any claimed breach of any warranty whether expressed or implied. SealBoss Corp. shall not be responsible for use of this product in a manner to infringe on any patent or any other intellectual property rights held by others. In addition, no warranty or guarantee is being issued with respect to appearance, color, fading, chalking, staining, shrinkage, peeling, UV damage, excessive temperature exposure, normal wear and tear or improper application by the applicator. Damage caused by abuse, neglect and lack of proper maintenance, acts of nature and / or physical movement of the substrate or structural defects are also excluded from the limited warranty. SealBoss Corp. reserves the right to conduct performance tests on any material claimed to be defective prior to any repairs by owner, general contractor, or applicator. Neither seller nor manufacturer shall be liable to the buyer or any third person for any injury, loss or damage directly or indirectly resulting from use of or inability to use the product. Recommendations and statements other than those contained in a written agreement signed by an officer of the manufacturer shall not be binding upon the manufacturer or seller. SealBoss Corp. reserves the right to change the properties of products without notice.
