

BMD NORTHCLIFFE SURF CLUB 51 GARFIELD TERRACE QLD 4217

Date: January 2019
Project: Balcony Waterproofing & Deck Extension
Applicator: Top Floor Waterproofing Services
Applicaton: Waterproofing

PRODUCT USED

WPA 560
WPA 200
WPA Joint Band

At the BMD Northcliffe Surf Club in Surfers Paradise, Queensland, a crucial project was executed to waterproof a balcony and deck extension. This commercial property scope, encompassing 108 square meters, was entrusted to Top Floor Waterproofing Services, a specialist in waterproofing applications.

PRODUCTS SPECIFIED

METHODOLOGY

For this waterproofing endeavour, specific products were carefully specified, including WPA 560, WPA 200, and WPA Joint Band. These high-quality materials were instrumental in ensuring the longevity and integrity of the balcony and deck extension at the Surf Club, safeguarding against water infiltration and related structural issues. This project contributes to the overall quality and resilience of the property, aligning with its commercial and recreational purposes.
