

PRIMROSE SHERWOOD 35 PRIMROSE STREET SHERWOOD QLD 4075

Date: January 2019
Project: Waterproofing Wet Areas
Builder: Indigo Constructions
Applicator: Edge Waterproofing
Applicaton: Waterproofing

PRODUCT USED

WPA 500
WPA 230UV
WPA 360
WPA 460

Indigo Constructions, in collaboration with Primrose Sherwood, undertook the vital task of waterproofing wet areas and windows within a residential unit complex. This project, focusing on waterproofing, ensured the durability and protection of the complex. The applicator, Edge Waterproofing, played a crucial role in executing this task effectively.

CASE STUDY

PRODUCTS SPECIFIED

METHODOLOGY

The specified products for the waterproofing included WPA 500, WPA 230UV, WPA 360, and WPA 460. These products were chosen to meet the specific requirements of the project, contributing to the overall quality and resilience of the multi-unit complex. This waterproofing effort will help maintain the integrity of the building while safeguarding against water-related issues in wet areas and around windows.
