Size Comparison North America/Australia

Size Comparison Europe/Australia

Established in 2000, Bayset is an energetic Australian-owned business providing solutions to the Waterproofing, Flooring and Concrete Repair industries. We operate along the Eastern sea-board from Queensland to New South Wales, ACT and Victoria.

Our senior technical team have over 230 years of hands-on experience in all areas of the building envelope, from the basement to the rooftop and work with many international technically advanced companies to provide warranted solutions in our field of expertise. With local, knowledgeable, well-trained staff, Bayset prides itself on providing practical solutions for all your difficult problems.

Our mission is to be the partner of choice supplying end users in the waterproofing, flooring and concrete repair markets with unsurpassed customer service, outstanding value, and first-class technical advice.

Unsurpassed Customer Service

- We have the right product, in the right place, always.
- Our team care and have a strong personal desire to please others.
- We treat others as we wish to be treated.
- We don't say no. We always find a solution.

Outstanding Value

- We have a product offering that enables our customers to be competitive in their chosen fields. Leading brands at industry competitive pricing with industry leading information.
- We deliver added value to our customers with joint marketing initiatives.

First Class Technical Advice

- We have a well trained team with a high level of product knowledge
- All customers have access to BAYTEC training courses to enable them to keep abreast of new developments in products, systems and industry standards.
- All customers have access to onsite Bayset technical support.

Showrooms and dedicated training areas are an important part of the Bayset offer, allowing our customers, suppliers, and team to interact and learn from our industry experience. We provide continued professional development for architects and engineers and facilitate product training days throughout the year. These are held in our purpose built wet area training rooms and classrooms.

Core Competencies

WATERPROOFING

Versatile Product Range

Bayset offers an extensive selection of high quality waterproofing products & systems from industry leading local and international manufacturers. These range from advanced membrane systems and sealants to eco-friendly coatings ensuring a comprehensive suite of solutions for every project.

Tailored Services

Our expertise extends beyond product supply. We specialise in offering professional project consultations, and bespoke warranted waterproofing solutions, addressing the specific needs and challenges of each client. This includes detailed waterproofing designs, pre-construction site assessments, ongoing manufacturer site inspections and reports.

Certifications and Qualifications

Bayset distributes waterproofing systems that are independently tested and certified, affirming our commitment to meeting and exceeding regulatory standards. Our team comprises skilled professionals who undertake ongoing training in Australia and abroad to stay abreast of the latest advancements in waterproofing design, technology and regulatory standards.

Our WPA waterproofing systems were the first in Australia to have the highest level of certification in CodeMark.

REMEDIAL SOLUTIONS

Chemical Grouting

Bayset offers a diverse selection of injection resins and systems sourced both locally and internationally, ensuring comprehensive coverage for structural waterproofing and repairs. Whether it be addressing leaks in parking structures or safeguarding the integrity of civil infrastructure, our range is tailored to meet a spectrum of needs with precision and reliability.

Geotechnical

As the exclusive supply partner of the industry leading American manufacturer, Alchatek, Bayset proudly offers comprehensive solutions for geotechnical injection. Whether it's concrete lifting, soil stabilisation, increasing load bearing capacity, or zero boundary line consolidation, we have the precise solution for your unique challenges.

Seawall Repair Network

Bayset proudly serves as the exclusive provider of cutting-edge Seawall and Marine infrastructure repair resins and products within the Seawall Repair Network. The patented repair process stands out for its efficiency and environmental friendliness, offering a superior alternative to other solutions. This innovative approach not only enhances the longevity of marine structures but is particularly beneficial for preserving heritage listed sites.

Training & Education

Bayset is committed to fostering knowledge and expertise within the construction and building industry. Our training and technical division BAYTEC is a dedicated facility purpose-built for comprehensive training and education sessions and courses for industry professionals. We go beyond the basics, offering hands-on product training that not only imparts practical skills but also forms part of our accredited applicator warranty systems.

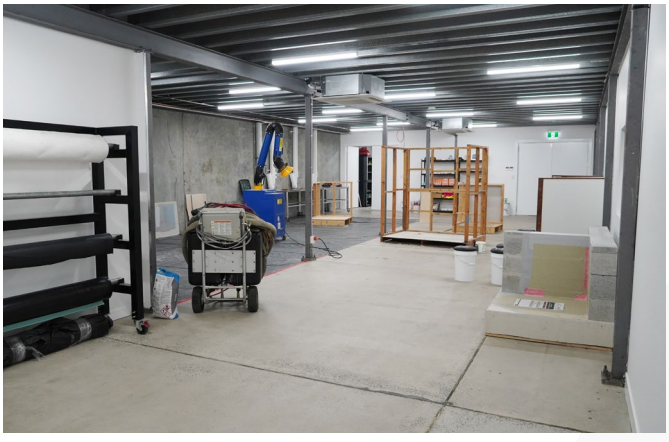

We also offer specific training for any given project that enables our clients to advance the knowledge and understanding for projects they may be undertaking.

In addition to our practical training sessions, Bayset hosts educational seminars designed to keep industry professionals abreast of the latest updates and changes in relevant building standards and codes. These seminars provide a platform for insightful discussions, allowing participants to gain valuable insights into emerging trends and advancements.

Our commitment to continuous learning underscores our dedication to empowering individuals with the knowledge they need to thrive in a dynamic and evolving construction landscape. At Bayset, we believe that well-informed professionals contribute to the overall advancement and excellence of the industry.

Key Contacts

Mal Ferraro
Chief Executive Officer/Director

m 0437 738 574
e mferraro@bayset.com.au

- Certified Surveyor in Structural Waterproofing
- Cert III Construction Waterproofing
- Approved CETCO Inspector
- AIW Vice President

Mal is a qualified waterproofing surveyor, approved CETCO Inspector and also has his Certificate III in Waterproofing. Mal joined the Bayset team in March 2008 and has over 25 years experience in Australia and the UK with roles in specification management, application and sales and marketing.

Mal has an intimate knowledge of below ground waterproofing, crack injection, concrete repair, tile adhesive and levelling compounds.

Steve Russell
National Technical Manager

m 0407 633 922
e srussell@bayset.com.au

- Cert III Construction Waterproofing
- Approved CETCO Inspector
- Approved Soprema Inspector

Steve has been in the waterproofing industry for over 33 years, having run his own successful business in Canberra and Brisbane. Steve has worked in all areas of the industry and has a wide knowledge base in Bituminous, TPO and PVC sheet membranes. Steve brings extensive practical knowledge to the Bayset team and employs a methodical approach to everything he undertakes.

Daniel Ford
National Business Development Manager

m 0403 244 676
e dford@bayset.com.au

With over 15 years practical experience as a Waterproofing Contractor, Daniel takes a hands on approach to assisting our clients. He can often be found back “on the tools” on weekends helping out on a tricky job.

Daniel has an in-depth knowledge of a wide range of waterproofing procedures and products and has worked extensively with various concrete injection and repair systems, sheet membrane and epoxy coatings. Daniel is available to all our Bayset customers to assist with not only the right solution for the job but also real-world experience on the application of these systems.

Beau Cornick
National Specification Manager

m 0429 813 341
e bcornick@bayset.com.au

Beau joins Bayset with 15 years’ experience in the construction industry, with a particular interest and expertise in remedial systems and solutions.

He has an extensive knowledge of coatings systems, waterproofing, concrete repair, and cathodic protection.
