

XYPEX MEGAMIX II

XYPEX
MEGAMIX II

*Repair of Deteriorate
Concrete Surfaces*

KEY BENEFITS

- Excellent adhesion and bond to concrete substrates
- Resistant to chemical attack
- Low shrinkage, fibre reinforced
- Highly resistant to chloride diffusion
- Sulfate resistant (very severe sulfate exposure)
- Ready to use - just add water
- Vertical and overhead concrete repair; sprayable
- Non-toxic / no VOCs
- AS/NZS 4020 and NSF 61 approved

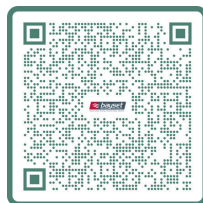

Waterproofing, Flooring & Concrete Repair Industries

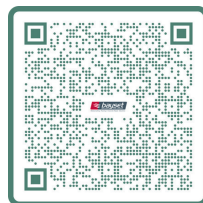

XYPEX MEGAMIX II REPAIR AND RESURFACING MORTAR

Xypex Megamix II is a thick repair mortar for the patching and resurfacing of deteriorated concrete. Megamix II has been specifically formulated to produce superior bond, low shrinkage, chemical durability and high strength. It is a one component mortar and can be either sprayed or trowel applied at a thickness of 3/8 - 2 in. (10 - 50 mm) per layer. The high performance characteristics of Megamix II are enhanced by Xypex's unique crystalline waterproofing and protection technology.
